U52184: SECURITY COUNCIL: RWANDA: UNOMUR

Your C04637 and fax 2810.

2 It is encouraging that no movement of arms or armed personnel from Uganda into Rwanda has been detected by UNOMUR during the reporting period. The Council has no reason not to accept this conclusion on the face of it (although it seems to defy logic that the RPF has not been resupplied from somewhere during the last two months).

3 We can go along with the Sec-Gen's recommendation that, predicated on the establishment of an effective ceasefire, the mandate of UNOMUR be renewed for three months during which it would be reduced in phases leading to a close-down by 21 September. We agree there is an illogicality in continuing to monitor one border and not others.

4 We would prefer op 2 to spell out the operational phase-down rather than refer to para 14 of the Sec-Gen's report. This would help put op 3 into proper context. As currently drafted there seems to be an inconsistency between the wording of op 3 and the close-down by 21 September which the Sec-Gen recommends.
