U53225: SECURITY COUNCIL : RWANDA

Your C04705 and secure fax 2899.

2 We note the various options being considered and while we do not have firm views on them at this stage agree that an alternative to a direct challenge to Rwanda's Presidency in September seems likely to find greater acceptance. The situation clearly still has some way to play itself out and could also be affected by developments on the ground. As you know we do not see New Zealand as taking a leading part in discussions on the issue.

3 Grateful you keep us informed of the progress of informal discussions.
